

## KEY PERSONNEL

---

### **Louis Shell, SE, Principal**

Mr. Shell has over ten years of practical and teaching experience in the fields of structural engineering and architecture. He has wide-ranging experience in the design and construction of buildings and other structures, as well as the evaluation and restoration of existing structures, utilizing a broad range of structural components, materials and systems. His projects range in scale from small award-winning residential additions to multi-million dollar educational and research facilities. Mr. Shell is an active participant in architectural education, research and design. He is currently an Adjunct Associate Professor at the Illinois Institute of Technology's College of Architecture and he has been a guest facilitator and critic at the School of Architecture at the University of Illinois at Chicago as well as the Art Institute of Chicago. Mr. Shell earned his Bachelors of Science in Civil Engineering degree from Iowa State University and his Masters in Architecture degree from the University of Illinois at Chicago. He is licensed as a Structural Engineer in the State of Illinois.

#### Education

MArch

University of Illinois at Chicago

May 2003

BS Civil Engineering

Iowa State University of Science and Technology

Ames, Iowa

May 1995

State of Illinois Licensed Structural Engineer

License No. 081-006147

### **Kerry D. O'Connor, Engineer**

Mr. O'Connor has over seven years of experience in the fields of structural and transportation engineering. He is knowledgeable in the use of various structural materials including wood, structural steel, reinforced concrete and reinforced masonry. Mr. O'Connor has overseen the design and construction of many educational and residential projects. He earned a Bachelors of Science in Civil Engineering degree of the University of Illinois at Urbana / Champaign.
